ENGAGING

ADVANCING

We're shaping the future of our evolving health care landscape by creating a true partnership and shared responsibility between practice and education — what we call the "Nexus" — to enhance the patient experience, improve population health and lower costs.

Disruptive innovations

Value-based payment

The emergence of “boundary spanning roles”

New Models of Care

Game Changer: New Models of Care

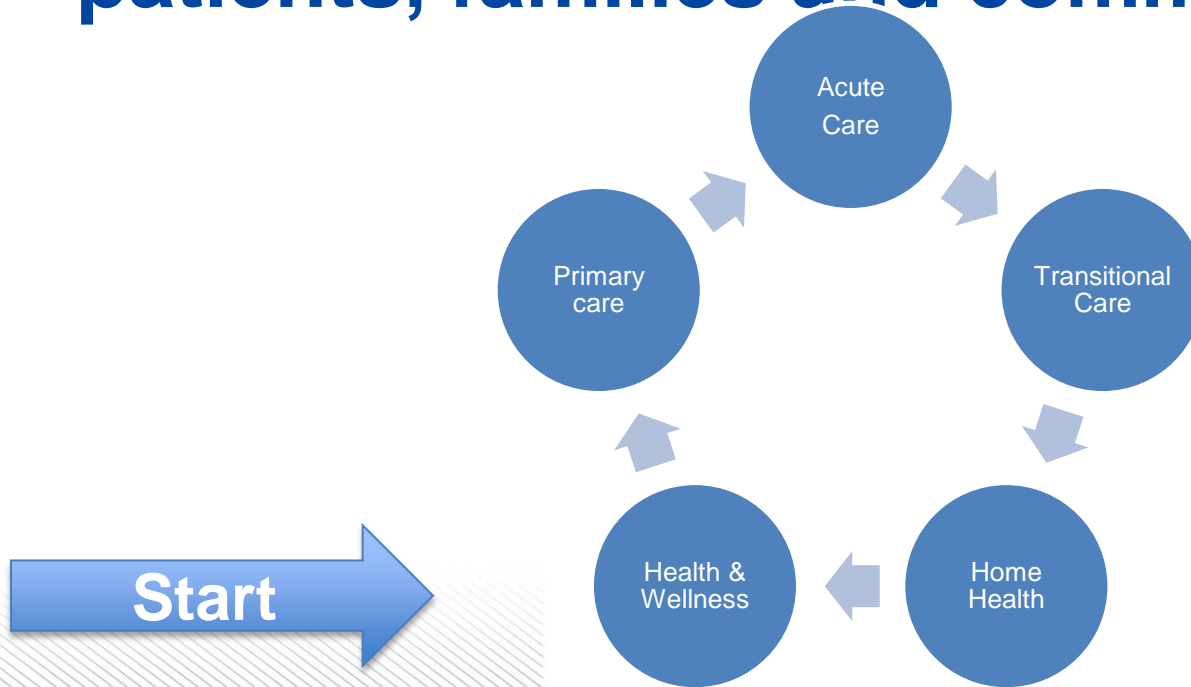

7

Goal: provide patients with more comprehensive, accessible, coordinated and high quality care at lower costs

- ✓ **Emphasis on primary, preventive and “upstream” care**
- ✓ **Care is integrated between:**
 - **primary care, medical sub-specialties, home health agencies and nursing homes**
 - **health care system and community-based social services**
- ✓ **EHRs used to monitor patient and population health—increased use of data for risk-stratification and hot spotting**
- ✓ **Interventions focused at both patient- and population-level**
- ✓ **Move toward “risk-based” and “value-based” payment models**

Everyone is on the team, including patients, families and communities.

We need new and different teams. . . .

9

- **New integrating care models:**
- **Care coordinators: Patient navigators**
- **Community health workers**
- **Medical Scribes**
- **Informatics specialists**
- **Community health workers**
- **Health coaching**
- **Genetic counselors: Personalized medicine**
- **Ethics clinicians**
- **Integrated health and complimentary alternative medicine**

Example: Medical Assistants

- ✓ Expanding responsibilities in primary care
- ✓ Patient panel management: gaps in care and prevention
- ✓ Pre-visit chart review – flagging overdue services
- ✓ Contacting patients
- ✓ Placing patients in rooms with specific tasks
- ✓ Health coaching
- ✓ Leading team huddles
- ✓ Quality improvement tasks

Activity

Global Forum on Innovation in Health Professional Education

Type: Forum
Topics: Education, Global Health, Health Care Workforce
Board: Board on Global Health

Activity Description

The Global Forum is an ongoing, convening activity of the IOM that brings together stakeholders from multiple nations and professions to network, discuss and illuminate issues within health professional education. Currently, there are over 60 appointed members to the Forum who are academic experts and health professionals representing 18 different disciplines from 9 countries. Of these members, 46 are sponsors.
