Welcome to the Conference

Welcome to Collaborating Across Borders VII

On behalf of the American Interprofessional Health Collaborative (AIHC), the Canadian Interprofessional Health Collaborative (CIHC), and Indiana University (IU), we welcome you to Collaborating Across Borders VII (CAB VII). For the past 12 years, CAB has promoted education and research around interprofessional education (IPE) and interprofessional collaborative practice (IPCP) in health and social care.

In true Indiana fashion, the theme of CAB VII is "Crossroads of Collaboration." Indianapolis is the hub of several major interstate highways that crisscross in Indiana, connecting its residents to the rest of the United States. Our hope is that CAB VII will serve as a hub for all of those engaged in interprofessional education and/or collaborative practice, connecting leaders from around the globe to advance interprofessional, collaborative practice to improve quality care and health outcomes.

We have planned a thought-provoking and stimulating conference and we hope you will explore and enjoy the learning and networking opportunities being offered at this conference. We have an excellent and engaging keynote speaker lineup and nearly 400 pre-conference workshops, roundtable discussions, panel presentations, workshops, focused symposiums, interactive posters, and oral presentations. In an effort to engage and shape our students in a more intentional way, we have designated Tuesday, October 22 as Student Engagement Day – with many activities aiming to connect students with the global leaders in IPE and IPCP.

Many thanks to those who have helped create this wonderful conference: the Executive and Program Committees, the local organizing committee, IU Interprofessional Practice and Education Center, IU School of Medicine Continuing Medical Education, the many abstract reviewers, our generous sponsors and partners, and the National Center for Interprofessional Practice and Education.

We look forward to meeting you at the Crossroads of Collaboration!
